for Haunted Houses Opens Today!**

-Historic Property in Arvada Hosts State's Largest and Favorite Haunted Attraction-

ARVADA, Colo. September 30, 2004 – One year ago, renowned pastry chef and artist, Zachary Meyer, launched the inaugural year of Field of Corpses Haunted Attraction garnering the coveted People's Choice Award for Haunted Houses and winning the hearts of Halloween enthusiasts across the state. Tonight marks the opening of the second season for Field of Corpses, bringing with it the chilling combination of scares that won it top haunt in 2003 and a vast array of new terror that will leave patrons screaming for more!

“People often ask me why I decided to open a haunted attraction in addition to my family's successful bakery. It's simply really . . . I wanted to share my love for Halloween with everyone, so that they can love it as much as I do,” said Zachary Meyer, owner and operator of Demented Dwarfs Production, LLC. “I wanted to create a haunted atmosphere from the second people arrived at Field of Corpses. One that begins in the parking lot, carries throughout the queue line and has people psyched to be scared before they enter the attraction. Because we built every inch of Field of Corpses it truly terrifies you. It doesn't have the pretend feeling of being in a movie theater, mall or parking lot.

-more-

About Demented Dwarfs, LLC.

Founded in Arvada, Colo. in 2001, Demented Dwarfs Productions, LLC. is the parent company of Field of Corpses, Colorado's largest haunted attraction. Demented Dwarfs emerged from the obsession with fear and unparalleled artist creativity of Zachary Meyer, master dessert chef of Das Meyer Fine Pastry Chalet.

The plan for Field of Corpses began over a breakfast conversation with Meyer's family, by lunch the design was complete and by dinner it was settled they would build a haunted attraction. Meyer constructed Field of Corpses on the historic Torrence White Property, one of Arvada's first and last remaining farms, and home to his family's bakery and reception manor. Field of Corpses incorporates a haunting agricultural theme with the turn-of-the-century architecture while maintaining the historic integrity of the site.
